Tiffany Jones I agree here. No idea how many thousands of dollars it costs to make that happen, after some research I was surprised. The insurance for vendors is has also gone up an insane amount. With that said, I'd absolutely pay extra for the experience!

Bring Carnival and more food vendors. More lighting in the food area, couldn't see our food at night. Good entertainment this year. Water grounds more so it's not so dusty, the dust was awful this year.

I noticed a shortage of trash cans through out the grounds. Also, unrealistic to expect rabbit and poultry kids to haul their dirty shavings over to the pig barn dump site. Every location that had porta potties should have also had a handicap accessibl... See more

Lack of garbage cans and No shavings dumpster for the rabbits and poultry is bad. Those kids can't carry that far. They are the littles of the fair.

So happy to NOT see the carnival - the kids get pretty overstimulated and tired from the noise and lights. They seemed to be having a more enjoyable time without it.

Bummed about the lack of vendors (one full building completely empty 😞)

Bathrooms need a good fixing. I heard the men's shower only had one working stall and the women's was down to 2 stalls (very dirty throughout but water temp and pressure was good). And handicap shower and bathroom stall were not usable.

Has anyone ever brought up about closing fair at noon on Sunday (doesn't seem like many visitors stop by after that). Vendors not being released until 3pm makes for a very long monday once animals/trailers can actually leave, including all the awesome volunteers who don't get home after 9pm!

My family always has a great time at the fair. We greatly appreciate all the volunteers that make this happen for our kids. Thank you!

It was great!!! You all have obviously put in a TON of work this year! 2 suggestions: If possible, add a covered area on the bleachers for elderly and babies. The heat on Saturday was rough and I did hear a lot of comments about that.

The sound system at the rodeo/horse races wasn't great. Hard to hear anything the announcer was saying.

Thanks for a great year!

Hello!

First I just wanted to say thank you for all your hard work, I know it takes hours and hours of tireless and often not recognized work but I am so thankful for all your hard work. I love, and have always loved fair and I am hoping that this year is a step in the right direction to improving our fair over the next years.

The good:

I thought the judges did an excellent job, both when watching the animal shows as well as the judges throughout the buildings. It was really nice to have the score cards in the home ec and horticulture building to let us know what we did well and what needed improving.

I found that the grounds were kept clean and lots of water laid down to reduce the dust (some people said lack of garbage cans and dusty grounds, I didn't notice either)

The bad:

I wish that I would have had an email or phone call about the lack of water at the north end. I didn't realize there were water issues and never saw the Facebook memo about coming with a full tank.

The buildings still feel so empty, the agriplex is such a large building but very sad walking through and it seeming so empty. As a suggestion maybe the people in the agriplex should move to the old commercial building, smaller space and would fill up better.

The large animal auction was extremely crowded with the shorter stands. Hard to hear if you were not in the building.

Suggestions:

I think it would be really neat to see our auction move to the agriplex. Although getting the pigs to the area would take a bit of thinking the agriplex would make for much more convent seating as it is a larger area, more room would allow for more buyers to be seated comfortably for long periods of time. If the weather was not ideal (wind/rain) the buyers and spectators would be able to watch in a much comfortable area.

I think the cornhole tournament sounded like a fantastic idea just poor timing. Nothing can really be set in plan for Saturday evening since so many people who are fair parents who would like to participate are supporting kids at the sale.

Thank you again for all the help and keeping our fair going, here is to another great year and many more to come!

Sincerely,
Shelby

Fair

Ok, here it is, the good the bad and the ugly, just like you requested.

First off, I'd like to remind both the FAC and the Fairgrounds itself that while fair is about the the people who attend and visit the fair, it wouldn't happen without the people that show up with their children and their animals and actually stay on the fairgrounds. Bathroom maintenance should be done before fair. The bathrooms and showers should be CLEAN and maintained before fair starts and during the fair. If a bathroom stall is missing a door, needs a lock replaced or needs to be fixed, that should happen before fair. Trash cans were nonexistent in the camping area on the south end.

Trash cans were hard to find both on the fairgrounds and in the camping area. I looked for a trash can by the grandstands and found only a barrel filled with concrete. The result was people leaving their garbage on the ground and on the tables. I understand that if there are more trash cans that means there are more to empty, but isn't that better than picking the garbage up off the ground?

Usually there is a dirty shavings dumpster between the Rabbit and Poultry barns. The littlest kids showing their animals at fair ended up dumping dirty shavings in trash cans (and filling them up before the fairgrounds even opened 🐰) because they couldn't find a dirty shavings bin.

The the Home Ec building was beautifully organized and painfully empty. I love that the supervisor provides an amazing overall prize basket but I would love to see some grands and reserves in the different categories instead of only one grand with the overall prize. I think it could encourage more people to enter their canned and preserved goods if they were broke down into smaller categories and not for only one overall prize.

The grandstands need a cover. Umbrellas in grandstands don't work ☔. I don't know how to explain that in depth, because I shouldn't have to.

The concert was amazing! I'm sure that took a huge amount of organizing, whoever did that, you did an awesome job!!

I know this is old news, but who's idea was it to put the announcers booth between the audience and the rodeo arena? It makes it quite hard to see the chutes. And makes the rodeo much less enjoyable.

The new power boxes at the south end camping are awesome! They work well and it's awesome that they are put out early on Wednesday. Thank you!!

The concert was so cool, and I'm guessing it took a big chunk of the entertainment budget. I understand. I would like to see more activities, even if fair goers have to pay for them. Like a climbing wall or bungee trampoline or mutton busting. The stage entertainment was awesome this year as well, but entertainment goes beyond singing and music.

Why was the commercial building closed up? Was there just not something that could fill it? Maybe an entertainment option could set up in there? Kids activities or something.

Subject: Stolen Truck

I am reporting a stolen vehicle from the fair grounds for a friend of mine who is currently dealing with the Sheriff Dept. She brought her camp trailer in with the truck. And parked the truck in the South lot. She last saw the truck on Thursday of Fair. She came this evening to pick up her camper and the truck was gone. She called the tow company and they didn't have it. Sheriff report has been filed.

Rebecca (goes by Becca) Konrad

1996 Silver Dodge Ram 2500 diesel- kind of beat up exterior

Her contact information: 509-429-2627 if you need a report from her. She did not get the case number from the Sheriff Deputy.

Let me start out by saying that I love our county fair. I've been participating for over 40 years and am a past fair queen, but the issues just don't seem to resolve. The lack of respect for small animal showmen is beyond frustrating. These kids matter just as much as the hog and steer kids. Many of them are your future large animal kids, but that is beside the point. Small animals can be shown their entire lives not just as a youth. I myself have been showing rabbits in the American Rabbit Breeders Association since I attended my first ARBA show here in Okanogan County at the age of twelve.

Shavings dump bin – We fight for this every year and I've been the super for 11 years. We're always told that there is a dumpster shortage, or people put garbage in them. Fix the problem. Use apple bins. Buy more dumpsters. Color code them and paint them so people know the difference. I will never make a 2yo walk to the pig barns with their pans to dump. This is not okay and many of the older kids have multiple projects.

Shavings- This year after a slow start, Sheila was able to find someone who made sure our shavings bin was filled, but this is also a continuous problem. There were lots of shavings this year. Our barns should be put on a morning delivery schedule.

Barn Maintenance – The floors are disintegrating while we're on them. Big chunks of concrete keep sloughing out and I'm amazed no one has had a serious injury from tripping on them. We like to keep our barn really clean. This is extra difficult with poorly poured original concrete that is falling apart and a huge section that is just dirt.

I know inmates aren't always available anymore, but it would be great to see someone picking up garbage on the grounds. Every year, the fairgrounds seem to be messier during fair. And that ancient bathroom in the trailer area is hideous; showers not working, doors falling off and just daily dirtiness.

The fur and feather auction is a mess every year. There needs to be a designated person who will make sure all the requirements are done. Barn superintendents do not have the time. This year, we did not receive a list of which animals were staying and going, and buyers did not receive a receipt. This makes check-out of the auction animals extra complicated.

We are doing our part to try to improve the fair experience. We are getting cage sponsors to replace our dangerous and disintegrating equipment. This is a slow process, but is coming along. We would love to see the commissioners and FAC put as much love and care into our fairgrounds.

And one final issue, fair is open until 3. Some supers need a reminder and whoever let people start removing trailers at 230.

Sincerely,
Beth Yarnell – Rabbit Barn Superintendent

Subject: Feedback

This years fair was great! Our kids enjoyed it so much. The little beef barn is by far our favorite, they are organized and fun. Naomie in the main office was so kind and extremely helpful, I was really impressed with her patient. I could go on with all the great things!

A few things listed simply that we would like to see improve over time..

- Poultry barn was so unorganized, and not the most helpful. Was really disappointed in that. A mandatory barn meet would have helped a lot, not everyone knows what questions to ask. And updating their white board would help with confusion.
- Would really like to see calves be included in an auction (so much money and hard work go into them)
- more food vendor options.
- better lighting especially in the food court
- camper parking was a nightmare, we had a spot paid for then when we got there and our stop was taken. Extremely frustrating.

Thank you for allowing feed back. We over all enjoyed fair and appreciate all the ones putting in hard work making it a success!

1) Did you have an easy time with parking and accessing the fairgrounds?

No, Parking was confusing and I did not know where to go...

2) Please tell us if you have any suggestions, or concerns with parking or comments for our parking crew.

Clearer signs for which gate to get into to bring exhibits/animals for first time fair showers.

3) How did we do with admission to the grounds at the gates.

Good, no problems.

5) Where you happy with the food court and selection?

It was okay.

6) How can we improve of the food court and its selections or good words of a good job?

An oriental/noodle or gyro venue would be nice. Enjoyed the burger options.

7) How was the commercial vendors? Did you like the selection of businesses to view and shop at?

It was okay.

8) How can we improve with our vendors or good words for our vending?

At a few vendors they were unhappy with how the fair was run this year and made it openly clear while at their venue to buy things. Being new to fair for the entire duration I was unaware of issue. There were complaints of bathrooms being locked and inaccessible by some elderly goers as we walked around the first or second day.

9) Did you like the exhibits, was the barns clean and easy to get around?

Yes I am very happy with the exhibits.

10) How can we improve the barns or praises for the fair barns.

We were in poultry doing our first time ever fair showings with our kids. We are in it without a 4H group so we are learning everything brand new and how things operate. The gal running the poultry barn is extremely short, dirty looks and almost annoyed when we are trying to figure out and learn what is going on. I have tried really hard to reason her behavior to not take it personally as she has a lot to tackle and is asked lots of questions from many people. The experience in there I am unsure if we will return to fair again and apprehensive to try other barns and possibly get the same experience again. I have run into quite a few people who are having same experience this year or in the past have and is why they do not show poultry.

11) How did we do with our entertainment? Did you like the shows?

Yes it was awesome this year!

12) Please tell us your thoughts on entertainment this year!

Music has been great all the days! Eddie Montgomery music was very good!

2) Please tell us if you have any suggestions, or concerns with parking or comments for our parking crew.

School day parking was a bit upsetting for some chaperones. Luckily I tried to get there before my parents to make sure I gave the parking attendants our school list. But then I stood there at the parking entrance telling Rocky which car was allowed to pass because they were on our list. But other school chaperones had to pay. Some parents were quite frustrated to pay the \$20 when they were supposed to be free. Because not all schools have buses (LCCS doesn't), I would hope the system can be improved for those parent chaperones in cars. My suggestion is that schools be required to email a list the day before. Then the parking attendants at the gate (horse track) can have those lists on a clip board, ask for photo ID, and check off drivers who are on the list. Anyone of course not on the list, has to pay. And just in case, because we always have 1 or 2 parents that go to the wrong gate no matter how clear our instructions are, give the lists to the main/front gate attendants as well. The horse track parking attendants were amazing and just put in a tough spot this year. Thank you!

3) How did we do with admission to the grounds at the gates.

Good, no problems.

5) Where you happy with the food court and selection?

Yes we loved the food this year.

6) How can we improve of the food court and its selections or good words of a good job?

Trash cans! We had our students eat at the stage so we can watch the magic show. But trash cans were no where close. It was difficult to find one readily. I would suggest placing a couple more trash cans by the stage area.

Love the kids in the animal barns. They are so knowledgable and helpful. Wonderful to see them talking to and educating the public. I was disappointed in the 4-H building. Seems like there was no participation there and maybe that building should have just closed since the 4-H program in our county is virtually non existant. - 6) How can we improve of the food court and its selections or good words of a good job?
Cost and wait times are to be expected. More seating. It was nice when the food vendors were more spread throughout the grounds. I.e. closer to rodeo
- 7) How was the commercial vendors? Did you like the selection of businesses to view and shop at?
It was okay.
- 8) How can we improve with our vendors or good words for our vending?
There were lots of clothes. I'm not sure what it costs to be a vendor. Maybe make it more affordable for smaller time sales to participate (local crafters and such)
- 9) Did you like the exhibits, was the barns clean and easy to get around?
Yes I am very happy with the exhibits.
- 11) How did we do with our entertainment? Did you like the shows?
Yes it was awesome this year!

County Fair.

You have received a new response!

Date Taken: 2022/09/12 22:42
Country: US

2) Please tell us if you have any suggestions, or concerns with parking or comments for our parking crew.

Missed the lights at night. It's scary to be single lady going clear out by road at night.

3) How did we do with admission to the grounds at the gates.

Good, no problems.

5) Where you happy with the food court and selection?

It was okay.

6) How can we improve of the food court and its selections or good words of a good job?

Not enough choices. No funnel cakes or regular burgers. Elephant ears. Just not as many choices

8) How can we improve with our vendors or good words for our vending?

Less political crap.

9) Did you like the exhibits, was the barns clean and easy to get around?

Yes I am very happy with the exhibits.

10) How can we improve the barns or praises for the fair barns.

The barn superintendents did amazing as always. They work so hard voluntarily and put out their own money to make them great. Wonder if we get more outreach in community if the arts and crafts etc would fill up. Let people know how. Hear that a lot. I should have put this in fair. Help people know how

11) How did we do with our entertainment? Did you like the shows?

Yes it was awesome this year!

12) Please tell us your thoughts on entertainment this year!

Concert was amazing. Also Saturday night dance. Loved all but the young rock stuff. But that's an old person point of view

1) Did you have an easy time with parking and accessing the fairgrounds?

Yes, the parking people helped!

2) Please tell us if you have any suggestions, or concerns with parking or comments for our parking crew.

Non parking areas need to be more clearly marked.
Don't let trucks in to get trailers before 3pm on Sunday. There was no one directing traffic at the bottleneck for trailers until a volunteer stepped in.

3) How did we do with admission to the grounds at the gates.

Good, no problems.

5) Where you happy with the food court and selection?

Not happy with the choices.

6) How can we improve of the food court and its selections or good words of a good job?

Not enough food vendors. No Asian food, only 1 place for curly fries. Not enough variety. Very long lines in the two popular vendors. Only 1 place to get a burger. Not enough kid friendly eating options. Kids don't want gyros, \$15 turkey legs or Mexican food.

7) How was the commercial vendors? Did you like the selection of businesses to view and shop at?

Not we are not happy with the selection.

8) How can we improve with our vendors or good words for our vending?

Agriplex was very empty. Nothing exciting to go in and see.

9) Did you like the exhibits, was the barns clean and easy to get around?

Yes I am very happy with the exhibits.

10) How can we improve the barns or praises for the fair barns.

Barn entries were very low, besides the animals. Bring in more exhibitors.

11) How did we do with our entertainment? Did you like the shows?

Yes it was awesome this year!
It was okay.

12) Please tell us your thoughts on entertainment this year!

Big name was okay, but lots of bands and entertainment options this year. Kids games were great. More advertising of when events take place. There wasn't a man accurate schedule that had ALL the events on it... just highlighted events.

4) Can we do anything to improve of the gates or comments to them?

Kids with exhibits should not have to purchase a wristband to be able to show their animals. \$35 per kid is a hard hit to families especially with feed prices so high.

5) Where you happy with the food court and selection?

Yes we loved the food this year.

1) Did you have an easy time with parking and accessing the fairgrounds?

Yes, the parking people helped!

2) Please tell us if you have any suggestions, or concerns with parking or comments for our parking crew.

Parking spaces need to be more clearly marked so that more people can fit. Not having actual spaces makes for a very confusing lot.

3) How did we do with admission to the grounds at the gates.

Good, no problems.

4) Can we do anything to improve of the gates or comments to them?

Admission prices for Thursday were ridiculous. \$20 per person was pretty steep considering that's just to get in the gate and then you still have to pay for food and anything else.

5) Where you happy with the food court and selection?

It was okay.

6) How can we improve of the food court and its selections or good words of a good job?

There needs to be more seating and shade. Shade over the seating at the stage would be nice, too.

7) How was the commercial vendors? Did you like the selection of businesses to view and shop at?

It was okay.

8) How can we improve with our vendors or good words for our vending?

Sad to see that the agroplex was practically empty this year.

9) Did you like the exhibits, was the bams clean and easy to get around?

It was okay this year.

I thought there could have been more variety.

7) How was the commercial vendors? Did you like the selection of businesses to view and shop at?

It was okay.

8) How can we improve with our vendors or good words for our vending?

As always, I wish we had the vendors like the old days. I miss the old commercial building, the embroidery booth, more vendors, etc.

9) Did you like the exhibits, was the barns clean and easy to get around?

Yes I am very happy with the exhibits.
It was okay this year.

10) How can we improve the barns or praises for the fair barns.

Barns were clean, just hoping for more people to get out an enter items in the buildings.

11) How did we do with our entertainment? Did you like the shows?

Yes it was awesome this year!

Yes, the parking people helped!

2) Please tell us if you have any suggestions, or concerns with parking or comments for our parking crew.

Would love to see an upgraded campground. Know this is costly, would help volunteer towards fairground projects in the future if I knew about them or a "call for volunteers".

3) How did we do with admission to the grounds at the gates.

Good, no problems.

4) Can we do anything to improve of the gates or comments to them?

\$20 was a bit much for Friday as some people were not attending the concert. Understand it was a "big name", but subsidizing it at the expense of everyone seems wrong.

5) Where you happy with the food court and selection?

It was okay.

6) How can we improve of the food court and its selections or good words of a good job?

More vendors, traditional ones. No elephant ears or the like. If so, they were poorly advertising their menu.

7) How was the commercial vendors? Did you like the selection of businesses to view and shop at?

It was okay.

8) How can we improve with our vendors or good words for our vending?

It has always been good in the past, would love to see the commercial building rebuilt or repaired for commercial booths of past fairs. They were good, a little light in number.

9) Did you like the exhibits, was the barns clean and easy to get around?

Yes I am very happy with the exhibits.

10) How can we improve the barns or praises for the fair barns.

Kids all seemed to have a fun time! Midway between barns is great meeting place and hangout for kids and everyone!

11) How did we do with our entertainment? Did you like the shows?

Not at the fair for the entertainment. Watched the parents try to show sheep, was entertaining!
